"experience the difference"

Why Invest in Anthos ?

Dr Stephen Pohan

"Anthos again was chosen as the best unit for our practice..., Unique water treatment systems are leading edge. Chair is very comfortable and Patients love the double articulated headrest. Anthos is definitely the most solidly built unit I looked at and is coated with a high gloss enamel finish. It looks new even after 7 years. I highly recommend it to anyone who is looking for the best."

Dr Jeffrey Kestenberg

"I have no hesitation in recommending Anthos...I have found the equipment to be very reliable, service prompt, reasonably priced, efficient and clean."

Dr Peter Martin

"I was impressed with the heavy duty engineering of the Anthos chairs and the high quality finish that appeared to be likely to last. This has been borne out over the last 4 years as the chairs still appear as new...Anthos in Australia can be recommended by their quality, service backup and prompt and polite handling of queries.

Dr Ruth H. Burns

" Thank you very much..., The response from patients and personnel is very positive... We are particularly impressed by the simple cleaning associated with the continental delivery system.
